

Digitize Your Hospital Needs with

***i*HIMSERP**

A Complete Hospital Information Management System

Image Computer **HIMSERP**

Web based online HIMS Software is in line with the Global Corporate structure. This solution can work as a close intranet as well as internet based solution. Based on back bone of Strong Security framework, all the users can access it any where any time based on the access rights given to them. This software has been meticulously designed in consultation with Hospital's to take care of every possible aspect in hospital management.

HIMS is simple to use, easy to configure. Being an Object oriented model, it is highly scaleable, and easier to maintain. It will have Excellent Data Analysis with simplicity in Design and extended Data and Network Security with built in support for SSL (Secure Sockets Layer) for extensive data protection when travelling over the net.

It covers the entire gamut of activities related to patients, doctors, referring doctors, billing, and receivable. Depending on the requirements of a particular hospital, provision for customization is there to satisfy the specific needs of the hospital.

Why Image **HIMSERP**

Image has implemented its hospital management solutions with a large number of clients and helped them in their transformation journey. Our client base includes charity and private healthcare providers, general hospitals and super specialty hospitals, large hospital chain to individual hospitals.

Our Vision/Mission

We aim at providing highest quality of service in every phase of Client Relationship, from initial contact to follow up support. We provide innovative software solution and to improve patient care and reduce cost of Hospital management. Our technical expertise and experience are unparalleled in the industry. Recognizing a client's custom software development needs and consistently exceeding their expectations is what sets us apart from the rest. We therefore focus not only on developing and maintaining the products and services we offer, but also on building long term relationships. The uniqueness of IMAGE, which really sets us apart, is that we work with you and pay constant attention to your requirements. Our services, whether before or after sales, are the most promising you can find. To be the leading global software solutions provider to the Diamond and Health care industry.

Our Team

Image is backed by a team of committed, experienced and qualified professionals. The team is the firm's biggest asset. Unlike Industry standards, Image has a retention rate of 95% for its employees which in turn imply very high ownership standards. Our strength is recognizing client needs and fostering an on-going relationship from initial contact to follow-up support. Keeping just the right balance of your industrial experience and our tech minds, our projects transform into long-term partnerships from day one. We go beyond collecting 'done it' certificates!!

Affordable

Available on Software as a Service model and also Subscription based model.

Software is developed on an open source technology and thus zero deployment licensing cost.
